

# ASADULLAH SHAFIQUE

Agentic AI Developer | CMT Industry Founder | Digital Strategist

Karachi, Pakistan · +92-321-3771445 · asadullahshafique@hotmail.com

github.com/asadullah48 · asadullahshafique-devunity.vercel.app · medium.com/@texcotembroiderysourcinghouse

## PROFESSIONAL SUMMARY

Agentic AI Developer and CMT Industry Founder with 25+ years of deep textile domain expertise, now building AI-powered SaaS for Pakistan's textile value chain. Founder of Texcot Embroidery Sourcing House and creator of the **Textile ERP Platform** — a full-scale system targeting fabric mills, CMT units, and garment exporters across Faisalabad, Sialkot, Gujranwala, Karachi, and Lahore.

Completed **6 consecutive Panaversity Hackathons** (Bronze → Silver → Silver → Gold → Platinum → Agent Factory) with **85% code reusability** and **zero failed attempts**. Currently advancing through Panaversity's Foundation of General & Custom Agent track.

## AGENT ENGINEERING METHODOLOGY

### 01 · THE ENVIRONMENT

#### Harness Engineering

The safety net around the model: tools, memory, permissions, observability. A forgetful agent is a harness problem, not a model failure.

### 02 · THE FEEDBACK

#### Loop Engineering

Evidence over confidence: a coding agent stops when the tests pass — not when it feels done.

### 03 · THE FLOW

#### Graph Engineering

Branching, approvals, retries, parallel tasks. One agent is a demo; a graph with approval gates is a product.

## TECHNICAL SKILLS

**AI & Agents:** OpenAI Agents SDK, Claude Code / Claude API, MCP Servers, A2A Protocol, Computer Use, LangChain, Constitutional AI, RAG, Streaming SSE

**Languages:** TypeScript, JavaScript, Python, HTML/CSS · **Frontend:** Next.js 15, React 19, Tailwind CSS v4, shadcn/ui

**Backend:** FastAPI, SQLAlchemy ORM, PostgreSQL, REST APIs · **Observability:** Prometheus, Grafana, Jaeger, Loki

**Cloud & DevOps:** Kubernetes, Docker, Dapr, Kafka, Helm, GitHub Actions, Vercel, Koyeb, Render · **Tools:** Git, Windows 11 / WSL2

## KEY PROJECTS

### Textile ERP Platform — Pakistan (Founder | 2024 – Present)

- **Fabric Mill Module:** roll/lot management, weaving & knitting stage tracking, yarn inventory, imported fabric handling
- **CMT Core:** order lifecycle, auto-billing (4 bill types), inventory with BOM, production sessions, dispatch tracking
- **Financial:** party ledgers, cash flow, multi-city financial accounts · **Stack:** Next.js 15, FastAPI, PostgreSQL

### Agentic OS Portfolio (Live, 2026 — asadullahshafique-devunity.vercel.app)

- Portfolio built as an agentic system: multi-mode AI chat agent (4 specialist modes) with streaming SSE, backed by FastAPI on Render
- Contact pipeline with Discord webhooks, GitHub stats proxy, token-protected admin dashboard; bilingual EN/AR with full RTL
- AI-discoverable: llms.txt, JSON-LD structured data, dynamic OG image generation

### Agent Factory (H5) — Panaversity Hackathon 2025

- Two-tier architecture: General Agent (Claude Code) manufactures Custom Agents (OpenAI Agents SDK); SKILL.md as monetizable intelligence units
- Digital FTE pricing model targeting the OpenAI Apps ecosystem; deployed on Kubernetes + Dapr

## HACKATHON ACHIEVEMENTS

---

- **Agent Factory (H5), 2025** — **Platinum**: General Agent manufactures Custom Agents; Digital FTE on K8s + Dapr; 117-slide deck
- **Cloud-Native Deployment (H4), 2025** — **Platinum**: full K8s stack with Dapr, Kafka, Prometheus/Grafana/Jaeger, Helm, CI/CD
- **Advanced Todo (H3), 2025** — **Gold**: 149 tests passing; triple-layer Constitutional AI (7 BLOCK + 5 FLAG patterns)
- **AI-Powered Todo (H2), 2025** — **Silver**: 89 tests passing; 70% code reuse from H1
- **Course Companion FTE (H1), 2024** — **Silver**: Zero-Backend-LLM architecture; Digital FTE model
- **Personal AI CTO (H0), 2024** — **Bronze**: Constitutional AI foundation; spec-first four-session methodology

## PROFESSIONAL EXPERIENCE

---

### **Founder & CEO — CMT Stitching Operations** *Texcot Embroidery Sourcing House · Karachi · 2020 – Present*

- Founded and operate a CMT stitching unit with 30–35 employees; oversee full manufacturing lifecycle from sample fabric to bulk production and inspection
- Building the Textile ERP Platform to digitize operations; lead digital marketing strategy for textile clients

### **Marketing Manager** *JK Embroidery · Karachi · 2016 – 2020*

- Managed marketing and production planning; optimized staff/equipment scheduling and resolved production bottlenecks; led 30–35 staff

### **Country Manager / Buying Agent** *Steven Berry · International · 2003 – 2005*

- Managed international shipments and procurement guidance; pre-production, in-production, and final inspection to international quality standards

## DIGITAL MARKETING SERVICES

---

Full-spectrum strategy for Dubai real estate, UAE construction, and Pakistani SMEs: social media management and paid campaigns, property portal listings, lead-generation funnels, monthly performance reporting; AED-priced packages for GCC/expat/diaspora investors.

## EDUCATION

---

- **Alim — 5-Year Islamic Studies Course**, Burooj Institute, Karachi
- **Associate Degree, Textile Technology**, Textile Institute of Pakistan (APTMA Project), Karachi, 1997
- **H.S.C Pre-Engineering**, Pakistan Shipowner's Government College, Karachi, 1994 · **S.S.C Science**, Ladybird Grammar School, 1992
